## Are we headed for a Police State?

We live in a changed America from just 4 years ago.

Corruption seems to be everywhere we look, the courts, judges, law enforcement, DOJ, FBI, IRS and Homeland Security.

We watch as laws are broken and nobody is held accountable.

High ranking officials are painting God-fearing, America-loving Patriots as "Terrorists" for attending school board meetings, calling on officials to look into elections for possible impropriety, or even just going to Washington D.C. for a rally.

We invite You to join us for a special <u>FREE</u> showing of the movie "Police State" at the day, time and address below:
